INDEX TO VOLUME VI.

OCTOBER, 1893, TO MARCH, 1894.

LEADING ARTICLES.

American and Other Patent Systems.	*Casper L. Redfield.*	351
American Practice in Silver-Lead Smelting. Illustrated.	*Walter Renton Ingalls.*	859
Architectural Event of Our Times, The.	*Henry Van Brunt.*	430
Architecture as a Profession.	*R. W. Gibson.*	322
Art of Topographic Mapping, The.	*Arthur Winslow.*	24
Art of Successful Advertising, The.	*Ernest H. Heinrichs.*	229
Bridging the Hudson at New York.	*Gustav Lindenthal.*	213
Camel as a Freight-Carrier, The. Illustrated.	*Edmund Mitchell.*	70
Canada and Our New Tariff.	*Erastus Wiman.*	125
Causes of Failure in "Boom" Towns.	*H. S. Fleming.*	276
City Water-Supplies of the Future.	*Samuel McElroy.*	819
Cost and Income of the Great Fair.	*Anthony F. Seeberger.*	519
Designers and Organizers of the Fair.	*E. C. Shankland.*	509
Effect of Subsidies on Shipping, The.	*Thomas Rhodes.*	54
Effects of the Centennial Exhibition.	*A. T. Goshorn.*	423
Electric Power at the World's Fair. Illustrated.	*Nelson W. Perry.*	330
Electricity in 1876 and 1893.	*Elihu Thomson.*	442
Electricity in Suburban Development.	*Erastus Wiman.*	679
English View of the World's Fair, An.	*J. Stephen Jeans.*	265
Era of Mechanical Triumph, An.	*R. H. Thurston.*	456
Fastest Cruiser in the World, The. Illustrated.	*Walter M. McFarland, U. S. N.*	685
Field of Domestic Engineering, The.	*Leicester Allen.*	86
Florida's Great Phosphate Industry. Illustrated.	*Alfred Allen.*	829
Growing Difficulty of Getting Gold, The.	*T. A. Rickard.*	313
History of Strikes in America.	*Arthur A. Freeman.*	176, 304
How the Ancients Moved Heavy Masses. Illustrated.	*W. F. Durfee.*	611, 793
Industrial Conditions in Mexico.	*John Birkinbine.*	633
International Effects of the Fair.	*Edmund Mitchell.*	468
Inventor of Gas Lighting, The.	*William Fletcher.*	223
Iron-Ore Region of Lake Superior, The. Illustrated.	*Richard A. Parker.*	152, 285
Joplin Zinc-Mining District, The. Illustrated.	*Hamilton S. Wicks.*	699
Labor's Delusion Regarding Capital.	*Alfred H. Peters.*	626
Lack of Originality in Architecture.	*Russell Sturgis.*	11

MACHINE-SHOP INSTRUCTION IN SCHOOLS.	*Joseph Torrey.*	17
MINING INDUSTRY AND THE FAIR, THE.	*R. W. Raymond.*	489
OFFICIAL ARCHITECTURE IN AMERICA.	*Montgomery Schuyler.*	711
PLEA FOR SERIES ELECTRIC TRACTION, A.	*Nelson W. Perry.*	812
PRECAUTIONARY HINTS TO INVENTORS.	*Frank Richards.*	853
PROPOSED CABLES UNDER THE PACIFIC.	*Herbert Laws Webb.*	844
REAL CURRENCY OF COMMERCE, THE.	*George S. Coe.*	1
RECENT PROGRESS IN SIAM. Illustrated.	*J. B. Breuer.*	32
RELATION OF CHEMISTRY TO ENGINEERING.	*Joseph Torrey.*	345
ROAD-BUILDING IN A SOUTHERN STATE. Illustrated.	*D. A. Tompkins.*	645
SAND FILTRATION AT LAWRENCE, MASS. Illustrated.	*George W. Fuller.*	663
SCIENCE AND SPORT IN MODEL YACHTING.	*Frederick R. Burton.*	63
SHIPS OF THE NEW BRITISH NAVY. Illustrated.	*William Laird Clowes.*	773
SMALL ELECTRIC-LIGHT STATIONS.	*J. E. Talbot.*	655
TEHUANTEPEC ISTHMUS RAILWAY, THE.	*Matias Romero.*	872
UNITED STATES NAVY OF 1893, THE. Illustrated.	*W. H. Jaques.*	187
VALUE AND USE OF LABOR STATISTICS.	*Carroll D. Wright.*	134
VALUE OF THE WORLD'S FAIR TO THE AMERICAN PEOPLE, THE.	*Andrew Carnegie.*	417
WIDENING USE OF COMPRESSED AIR, THE.	*W. P. Pressinger.*	145
WORLD'S FAIR AND THE RAILROADS, THE.	*H. G. Prout.*	499
WORLD'S FAIR BUILDINGS THROUGH FRENCH SPECTACLES, THE	*Jacques Hermant.*	774

EDITORIAL DEPARTMENTS.

ARCHITECTURE (*Barr Ferree*).	97, 239, 364, 529, 723, 891
CIVIL ENGINEERING (*John C. Trautwine, Jr.*).	538, 734, 907
ELECTRICITY (*Franklin L. Pope*).	92, 234, 358, 524, 717, 885
MACHINE-SHOP PRACTICE (*Albert D. Pentz*).	113, 254, 378, 550, 747
MECHANICAL ENGINEERING (*H. H. Suplee*).	902
MINING AND METALLURGY (*Albert Williams, Jr.*).	108, 249, 373, 544, 741, 912
RAILWAYS (*Thomas L. Greene*).	103, 244, 369, 534, 728, 897

ACCIDENT at Mansfield Iron-Mine..... 376
Accident, the Railway at Hackensack..... 898
Aërial Navigation, Interest in..... 907
Alternating and Polyphase Motors..... 92
Alternating Installations, Different Rates of Frequency in..... 527
Aluminum, Reduction in Price of..... 376
Amateur Glass-Blowing..... 258
Ambition in Machine-Shops..... 554
American Engineers in Foreign Countries.. 110
American Instruments for Electrical Measurements..... 238
American Kiln-Drying System in Europe.. 554
American Machinery on Electric Street Railways..... 238
Anthracite Mining in the West..... 913
Architectural Abominations at Chautauqua, and Mr. Vincent's Article 102
Architectural Competitions, Evil of..... 724
Architectural Eccentricities and the Public. 552

Architectural League of New York, Exhibition of the..... 723
Architectural Writers, Criticism of..... 366
Architecture, Books on..... 101
Architecture, Faults in Current..... 530
Architecture in Chicago, Decline in..... 726
Architecture, Instruction in..... 364
Architecture in New York.....366, 531
Architecture, Methods of Self-Advertising in..... 725
Architecture, Success in..... 529
Architecture, What Is It?..... 364
Arc Lights in Machine-Shops..... 749
Atchison Reorganization..... 535
"Audison," the, Its Need..... 236
Automatic Electric Signals on Electric Railway..... 358

BEAUX-ARTS Society of Architects of New York..... 891
Bell Telephone Co.'s Dividends and Patents 722
Belt Dressing..... 258
Bessemer's Sun Furnace..... 549
Blast-Furnace, Development of..... 549
Blast-Furnace Practice, Economy in..... 374
Bonds of the Union Pacific Guaranteed by the Government..... 536
"Boom" Towns and Business Depression. 763
Bridge Reconstruction on the Midlands, England..... 739
Bright and Painted Surfaces..... 116
Bronze for Castings..... 378
Burnishing and the Flow of Metals..... 380
Business and Training..... 748
Business on a Small Scale..... 748

CALIFORNIA Rate Case Decision..... 371
Cast-Iron Boxes Reamed in Oil..... 380
Casting of Iron, The Early..... 383
Castings, Rusted Red and Grey Surfaces... 114
Catalogue Indexing..... 256
Catalogues of Sanitary Apparatus, etc..... 727
Causes of Failures of Machine-Builders... 748
Central Stations Plants in Great Britain.... 237
Chemist in Foundry Practice, The..... 915
Coaling War Vessels at Sea..... 374
Coal-Waste in Pennsylvania..... 914
Coarse Grindstones in Machine-Shops..... 749
Coke-Oven, Disadvantages of the Ordinary. 916
Coke Trade Depression..... 743
Collingwood, F., Reëlected Secretary Am. Soc. C. E..... 739
Colorado's Bullion Report in 1893..... 741
Combined Water-Power and Electric Transmission Plant..... 359
Commercial Tests of Railway Combinations 901
Common Sense in Railway Rate-Making... 901
Commutation of Alternating Current into Direct..... 360
Conduit System of Electrical Distribution. 360
Consideration for Customers..... 117
Consolidating Steel Ingots by Pressure Developed by Centrifugal Force..... 746
Continuous-Current Dynamo Without Commutation..... 235
Contract System in Manufacture, The..... 552
Contrasts in World's Fair Exhibits..... 905
Cooling a Hot Box..... 115
Copper-Hardening.....256, 745
Coppersmithing..... 380
Cost of Mining Schools..... 761
Couplings and Shafting..... 551
Cross Section for Resisting Torsion..... 255
Curve Resistance, Report on..... 739
Cutting-Tools on Metals..... 255
Cyanide Potassium, Effects of, on Iron and Steel Ore..... 550
Cynabar at Lynn..... 377

"DEADLY Car-Stove," No Excuse for..... 897
Death of Grashof, Bauschinger, and Tyndal.. 737
Deep Boring in Silesia..... 917
Delaware River Changes..... 738
Device for Finding Metallic Ores Underground..... 746
Discipline in a Factory..... 117
Drill Chucks.....258, 747
Drill Jigs as Indicators In Designing Tools..... 116
Drill Jigs, Designing of..... 551
Dotted Lines and Sections in Drawings.... 747
Dough and Corn Pitch in Tool-Making.... 256
Dowel Pins, Satisfactory Drilling in the Jig 116
Ductility of Metals and Tenacity..... 379
Dumping Car..... 541

EDUCATION of the Public in Mechanical Questions..... 905
Electric and Cable Car Service Compared.. 888
Electric Central Station, Mammoth in Boston 890
Electric Central-Stations, Use of Larger Units in..... 887
Electric City, The, Great Falls, Montana.. 234
Electric Current Phenomenon, Unexplained 890
Electric Fire Engines..... 237
Electric Light Stations, Installation of Small..... 721
Electric Motors, Compactness of..... 526
Electric Motors, Type-Setting Machines Driven By..... 238
Electric Plant Operated by Water-Power, Large..... 722

Electric Power-Stations and Fires 717
Electric Railway in Budapest..... 887
Electric Railway in London..... 361
Electric Railway, Longest in the Country... 237
Electric Railways, Difficulty to be Encountered by..... 96
Electric Railways Displacing Horses..... 96
Electric Railways, Remedy for Accidents On..... 363
Electric Railways, Return Circuits of... . 238
Electric Railways Unprofitable in Massachusetts..... 888
Electric Street-Car Gong, Too Much Noise of the..... 95
Electric Street Cars, Safeguards on..... 358
Electric Tanning..... 359
Electrical and Mechanical Engineering.... 525
Electrical Canal-Boat Propulsion.....527, 718
Electrical Development Since 1876..... 525
Electrical Distribution Systems and Fire Losses..... 717
Electrical Engineer, Degree Conferred upon a Woman..... 95
Electrical Inventions, Influence of..... 235
Electrical Kitchen, Model of..... 93
Electrical Machinery, Great Cost of Repairs in 889
Electrical Plant at Boston Railway Station. 363
Electrical Power, Application to Street Railways by Mr. Whitney..... 93
Electrical Power Transmission in California..... 362
Electrical Power Transmission in Switzerland..... 360
Electrical Propulsion on the Erie Canal.... 718
Electrical Statistics of Switzerland..... 93
Electrical Transmission, Utilization of Water Power by, in Switzerland..... 95
Electrically Controlled and Wound Clocks.....361, 528
Electrically-Lighted Trains in England.... 359
Electrically-Operated Typewriter..... 360
Electricians, International Congress of.... 92
Electricity and Accidents..... 721
Electricity, Books on in Boston Public Library..... 237
Electricity, Cost of by Steam and Water Power..... 527
Electricity, Fires Attributed to..... 93
Electricity for Main-Line Railway Service. 903
Electricity Extending..... 360
Electricity in Horticulture..... 885
Electro-Magnetic Waves, Nature of..... 234
Engineers and Ability..... 115
Engineers, Coteries in Societies of..... 254
Engineers, Need of Local Bodies of 254
Engineering Profession, the Great Extension of..... 907
Erie Canal, More Water Needed in..... 889
Exhibitions and Loss of Material..... 546
Expansion Reamer, Flaw Made. 380
Experiments Through First Mechanisms... 114
Experiments upon Angle of Slope of Broken Stone Deposited at Random Under Water. 740

FACTORIES, Experience and Rules in Running Them..... 115
Fall of the Bridge on the Ohio River..... 734
Feed and Speed in Cutting Iron and Steel.. 378
Ferris Wheel and Moving Sidewalk..... 541
Files..... 117
Fine Art? What is a..... 891
Flow of Malleable and Ductile Metals..... 379
Flying-Machine with Paddle-Wheel Sails... 910
Friction Clutches in Shafting..... 258
Foundry-Men Behind Time..... 257
Fulgurites 95
Furnace Cases, Reason for Bad Results.... 113

GAS-ENGINE, as Horse-Power, Two Cylinder Otto... 234
Gases Inclosed in Coal-Dust..... 916
Gem Stones in the United States..... 377
Gold Mining, Increase of 108, 373
Gold-Quartz, Relocation of Low-Grade Abandoned Propositions 108
Gold Seekers, Poor Chances for..... 108
Good Castings..... 751
Grade-Crossings on New York Railways... 899
Grumblers in Shops..... 115

HAMMERSMITH Bridge, at London..... 908
"Harveyized" Armor-Plate Tests, Success of..... 913
"Hawk" in "Hamlet"..... 380
Hematite and Limonite in Minnesota..... 744
Hercent et Cie.'s Works..... 735
High-Building Problem in American Architecture..... 892
High Building and Its Art, The..... 896
"Horse-Power" a Useless Term..... 887
Hydraulic Mines Opened in California.... 915

IMPARTIAL Buyers 114
"Incandescent Arc" Lamp..... 235
Incandescent Lamp, Two New Types of... 96
Incandescent Lamps, Reduction in Cost of. 720
Insurance Engineering..... 908
Intramural Railway and Elevated System.. 527
Iron Blast Furnace Output, Depression in. 112
Iron-Mining in France..... 919
Iron Ore Mining and Hard Times..... 548
Iron Superstructure for Philadelphia City Hall Tower..... 740

LABOR and Law..... 384
Lack of Resources in Manufactures..... 748
Lake-Shipments of Iron Ore in 1893..... 742
Lard Oil, Improved for Lubrication..... 258
Large Gold Nuggets..... 745
Law vs. Common Sense..... 360
Lead Strike at Galena, Illinois..... 915
Linseed-Oil as Varnish for Cast Iron Surfaces..... 116
Line-Straightening and Road-Bed Widening on Railroads 543

MACHINE-DESIGN, Vital Points in..... .. 254
Machine-Making and Cleanliness..... 551

Magnetic Qualities of Iron Cores of Dynamos..... 95
Magneto-Telephones, Increase of Transmitting Power in..... 359
Making Dense Surface of Holes in Cast Iron..... 380
Masonry Dams..... 542
Mechanical Instruction in Technical Schools 257
Mechanical Power in Elasticity..... 116
Mechanics' Hobbies..... 380
Mechanics' Means of Advancement..... 381
Metropolitan Museum of Art..... 367
Mileage Tickets Legislation..... 371
Mine Foreman's Liability in Mexico..... 376
Mine Maps, Accurate..... 546
Mine-Owners' Liability..... 376
Mines, Correspondence School of.....251, 544
Mining, Accounts and Records in..... 251
Mining Companies' Dividends..... 112
Mining Decisions..... 110
Mining, Extreme Cases of Economy in..... 249
Mining Industries in 1893..... 544
Mining, Phenomenal Records in..... 547
Mining Schools in the United States..... 111
Mining Share Speculation..... 375
Mining Stocks, More Worthless..... 916
Models Better Than Drawings..... 116
Modification of Parts for Economy..... 378
Motor-Cars, Possibility of Lighter Ones... 93
Multipolar Dynamos Connected Directly with the Driving Engine..... 238

NASMYTH'S Definition of Engineering..... 902
National Academy of Design's New Building..... 367
Nevada's Metal Production Declining..... 913
New Ideas in Machinery..... 380
New Insulated Wire..... 362
Niagara Falls, New Power-Plant at..... 886
Niagara Falls, Preliminary Start at....903, 907
North Sea and Baltic Canal, and the Emperor's Suggestion..... 739

OIL Channels as Lubricants..... 113
Oilstones Marked with Ink..... 749
Ore Extraction in the Low Moor Mines.... 377
Ores, Low Grade and Lean..... 108
Ore, Small Lots of Gold and Silver, How Disposed of..... 110
Oscillation of Protectors of Gas-Burners... 115
"Our Great West," by Julian Ralph..... 895
Overhead Lines of Electric Light and Power Service..... 528
Over-Production of Iron Ore..... 548
Ozocerite in the United States..... 743

PASQUEAU Heuter, The..... 540
Patent Office Reform..... 762
Peat Used in Gas-Making..... 916
Piece- vs. Day-Work..... 378
Pickled Work, Treatment for..... 114
Pig-Iron Production in Britain..... 548
Placer Mining Undertaking..... 375
Placer Silver..... 109
Planers Driven by Friction Clutches..... 378
Plate Lightning-Arresters..... 234
Plating Bottoms of Ships with Copper..... 361
Points of Turning Tools..... 750
Portable Apparatus for Concentration Tests. 377
Positive Motions in Designing Machinery.. 115
Power-Station for Brooklyn City Railroad... 722
Producers and Talkers in Machine-Shps... 114
Precision of Measurements in the Work-Shop..... 902
Pulleys and Leather Belts..... 551

QUICK Action and Hand Work..... 378

RAILROAD Accidents.....247, 372
Railroad Collisions and Block Signals..... 248
Railroad Employés, Insurance of, in England..... 245
Railroad Finance, Question of Ethics in... 535
Railroad Overcharges..... 732
Railroad Pooling..... 731
Railroad Questions Needing Attention.... 103
Railroad Rates and Distances..... 731
Railroad Receiverships..... 248
Railroad Receiverships and Contracts..... 537
Railroad Traffic, Revival In..... 372
Railroads and the Interstate Commerce Law 729
Railroads, Anthracite Trade and..... 246
Railroads, Blanket Mortgage on..... 372
Railroads, Charges for Equipment-Renewal on..... 369
Railroads, Cheap Transportation on the Chesapeake and Ohio..... 104
Railroads Put in the Hands of Receivers.. 106
Railroads, Reports of the New York Central and the Denver and Rio Grande..... 244
Railroads, Reports of the Wabash..... 244
Railroads, Space Interval Between Trains on..... 248
Railway-Building Checked in Texas..... 900
Metal Production of the United States in 1893.....913, 914
Railway, Condition of the Canadian Pacific. 106
Railway Grades and Curves, Effects on Operating Expenses..... 898
Railway Mortgages..... 534
Railway, Operating Expenses of the Canadian Pacific..... 107
Railway Profits and Crops..... 733
Railway Rate Decision..... 536
Railway Retrenchment in Hard Times..... 728
Railway Revenues, Unsuspected Causes of Decrease in..... 900
Railway Terminals in Philadelphia..... 542
Railway Traffic, Distance as a Factor in Cost of..... 104
Railway Traffic, True Principle of Tariff Making..... 105
Railways and Water-Routes..... 733
Railways, Preferred Stock on..... 535
Railways Valuable for Transportation Only. 534
Raw Steel..... 379
Ray of Light as Straight Edge and Paper Test..... 750
Reuleaux's Portrait..... 739
Rope-Drive Working Successfully.....256, 382

SAFETY-LAMP, Gauzante's Electric..... 917
Screws on Iron Planers, Not Alike..... 751
Sea Water, Gold and Silver in..... 112
Shafting, Defects in..... 551
Shallow Coal Mines in Missouri..... 374
Ship-Canals..... 543
Short-Weight Coal..... 373
Silicon-Bronze for Electric Light and Power Conductors..... 235

Silver Mines in the United States..... 108
Silver-Mining, Depression in 373
Simple Discoveries, Value of..... 749
Smith, James F., Eightieth Birthday..... 739
Sonora Coke and the Smelting Industry.... 743
Standard Screw-Threads in France..... 906
Steam and Horse- and Mule-Power on the Erie Canal..... 720
Steam-Engines at the World's Fair..... 904
Steam-Turbine, Advantages of.....904, 907
Steel Castings, What they Are..... 379
Stiffness of Coiled Spring Inversely Proportional to Length of Wire..... 117
Stone Bridges in Galicia..... 740
Storage-Battery in Telegraphic Service.... 890
Storage Batteries, Injunction on Use of at Milford..... 237
Street Cars, Heating and Lighting of..... 361
Street Cars Not Run on Sunday..... 95
Street-Railway from New York to Philadelphia Impracticable..... 890
Street-Railway Propulsion and the "Public." 718
Strength of Passenger-Coaches..... 898
Subdivision of Motors..... 904
Submarine Lines, Twin Conductor Cable for High Speed Working on..... 238
Superintendence..... 116
Supremacy of the United States in Iron-making..... 915
Suspension of the $100 "Assessment-Work" Law..... 741
Sulphur Opposed to Hardening of Steel... 113

TALL Telephone Lines..... 361
Tamarack No. 3, Depth and Working of.. 743
Tariff on Coal and Iron in the Wilson Bill. 913
Tariff on Ores, Minerals and Metals..... 545
Technical Operations, Successful Description Of..... 113
Telegraph Communication, Remedy for Interruption of..... 94
Telephone Conductors, Underground..... 722
Telephone Exchange Statistics in New York. 889
Telephone Facilities, Increase in..... 885
Telephone Receivers, Reduced Price of... 886
Telephones for Interior Use in Stores..... 887
Telephones, Decrease in Number of Instruments..... 95
Telephonic Communication Between Glasgow and Belfast..... 96
Telephoning Across the Atlantic. 236
Tesla Polyphase System for Niagara Plant.. 358
"Theory" and "Practice" in Railway Management..... 899
Time on Italian Railways..... 739
Tin Production in Cornwall..... 549
Transmission of Signals Without Wires... 94
Transmission of Signals Without Wires, Experiment in..... 95
Transmitting Power by Electric Wires in Shops..... 114
Transportation Unprofitable..... 729
Traveling-Crane, The Modern High-Speed 902
Triangular Disposition of Bridge Trusses.. 734
Tunnel-Driving, Very Good..... 742
Turbine Business, Humbug in the..... 363
Turret Machines, Placing of Tools..... 113

Twenty-Story Office Building, Competition for a..... 895

VERTICAL Shaft *vs.* Incline, in Mining.... 912

WAX in Experiments on New Devices..... 257
Wind-Power for Driving Electric Plant... 890
Women in Architecture. 893
Working for Records..... 256
Workmen's Faults..... 750
World's Fair, Architectural Appliances at the..... 242
World's Fair, Architectural Models at the.. 242
World's Fair Architecture Copied..... 726
World's Fair Architecture, Critics of...243, 368
World's Fair, Arc Light Dynamos Exhibited at..... 238
World's Fair, Building Materials at the.... 99
World's Fair, Central Nave Illumination at the..... 740
World's Fair, Columbian Memorial Arch at the..... 552
World's Fair, Electrically-Propelled Launches at the..... 363
World's Fair, Enclosures at the..... 240
World's Fair, Engineering Exhibition of Germany at the..... 538
World's Fair, Engineering Headquarters at the..... 542
World's Fair, Foreign Buildings at the .. 98
World's Fair, French Engineers at the.... 736
World's Fair, German Military Engineering at the..... 540
World's Fair, Household Art at the..... 241
World's Fair, Incandescent Light Plant at the..... 94
World's Fair, Ingenious Electrical Diversions at the..... 524
World's Fair, Intramural Railway at the... 358
World's Fair, Japan Bridge of 1662 at the. 740
World's Fair, Landscape Gardening at the. 240
World's Fair, Largest Dynamo-Electric Machine at..... 238
World's Fair, Magazine Literature on the Architecture of the.....97, 533
World's Fair, Mining Industries at the..... 546
World's Fair, Miscellaneous Department at the..... 101
World's Fair, Movable Dam at the..... 540
World's Fair, Novel Features to Electricians at the..... 524
World's Fair, Postal Telegraph Exhibit at.. 238
World's Fair, Powerful Search Light at.... 234
World's Fair, Railway Tracks Exhibition at the..... 539
World's Fair, Reynolds-Corliss Engine at the..... 526
World's Fair Sanitary Display at the..... 99
World's Fair, State Buildings at the..... 97
World's Fair, Strong and Weak Features at the..... 239
World's Fair, Switchboards, Generators and Motors at the..... 526
World's Fair, Unintelligible and Ignorant Explanations of Apparatus at.....237, 361
Young Engineers, Room for in Railway-Operating..... 899
